Topic 3 Assessment Day

Lesson 3-5 · Period 4 · Teacher Notes

[PIN] DAY 4 — TOPIC 3 ASSESSMENT

Low-energy day. Proctor, don't teach. Students take the 11-question Topic 3 assessment ([a2topic3assess.docx](#)). Keep the tone calm; hand out the self-reflection at the end. Tonight: scan confidence scores; if the class averaged below 3, plan a P1 Do Now for L41 around the weakest topic.

Tag: low-stakes prime

Do Now (Gentle Warm-Up)

DOK: 1

Minutes: 3

Teacher does

- Hand out warm-up sheet at door.
- Quick no-stakes check; do NOT stop to re-teach.
- Collect warm-up sheets (or leave on desks) at minute 3.

Students do

- Pick one warm-up problem. Write confidently.
- Breathe. Settle in.

Questions to ask

- (*None — this is priming, not teaching.*)

Adult role

Solo teacher: low-key, calm energy. Don't hover.

Tag: logistics

Launch (Test Format Reminder)

DOK: —

Minutes: 2

Teacher does

- Announce: 11 questions, calculator allowed, expect 35 min.
- “If stuck, flag it and move on. Come back at the end.”
- No phones. Pencil only. Clear desk.
- Start timer visibly.

Students do

- Clear desk except pencil + calculator.
- Raise hand if a question is ambiguous (wording, not math).

Questions to ask

- Any logistical questions before we start?

Adult role

Solo teacher: reset room tone. Start timer visibly.

Tag: proctoring · silent

Assessment (Topic 3)

DOK: 1–3 mix

Minutes: 35

Teacher does

- Circulate silently every 10 min.
- At minute 20: “15 min remaining. Flag anything you need to skip.”
- At minute 30: “5 min. Finalize your answers.”

Students do

- Work independently. No partner talk.
- If stuck >2 min on a question, flag and move on.

Questions to ask

- (*Silent proctoring — no teaching during assessment.*)

Adult role

Solo teacher: proctor, time, say nothing content-related.

ASSESSMENT COVERAGE MAP (for your reference only)

- | | |
|------|---|
| Q#1 | Remainder Theorem — Lesson 3-4 |
| Q#2 | Cubic with conjugate irrational pair — Lesson 3-5 (Tue bridge prompt) |
| Q#3 | Binomial Theorem — Lesson 3-3 |
| Q#4 | Simplify to standard form — Lesson 3-2/3 |
| Q#5 | Zeros + end behavior from graph — Lesson 3-5 (Tue) |
| Q#6 | Lucy’s tray volume model — Lesson 3-5 (Wed, parallel to #27) |
| Q#7 | Polynomial identities factoring — Lesson 3-3 |
| Q#8 | Cube vs sphere growth — Lesson 3-1/2 |
| Q#9 | Synthetic division — Lesson 3-4 |
| Q#10 | Identify zeros — Lesson 3-5 (Tue) |
| Q#11 | Graph transformations of polynomial — Lesson 3-1/2 |

Tag: brief debrief

Share / Reflect

DOK: —

Minutes: 5

Teacher does

- Collect tests. Keep tone positive regardless of class vibes.
- Hand out self-reflection sheet.
- “One sentence: how did that feel?” — volunteer only.

Students do

- Complete self-reflection sheet.

- Optional: share one-sentence vibe check.

Questions to ask

- How did that feel overall? (Volunteer only.)

Adult role

Solo teacher: warm, non-judgmental. Do NOT give away answers.

Tag: self-reflection

Exit

DOK: —

Minutes: 5

Teacher does

- Collect self-reflection at door.
- Tonight: scan confidence scores. Plan next-day Do Now if class averaged <3.

Students do

- Complete all 4 reflection items honestly.

Questions to ask

- Which Q was hardest/easiest?
- What do you want to strengthen?

Adult role

Solo teacher: collect, don't read in front of them.

[CLOCK] PERIOD F (65-MIN) NOTE

Period F has 10 extra minutes on Thursday. Use:

- 5 min: post-assessment math-chat (students compare strategies on ONE problem they found interesting; teacher picks, no right-answer pressure).
- 5 min: Topic 4 preview (pencil out: “Next week we start inverse variation. Think about: what does ‘as x doubles, y halves’ mean?”).
- Do NOT reteach assessment content. Period A doesn’t get this extension.
